THURSDAY, OCT. 3, 1907

Republican Ticket.

The following ticket was nominated by the Republicans in State Convention in Louisville to be voted for at the November election:
 For Governor—Augustus E. Wilson, Louisville.
 For Lieutenant Governor—W. H. Cox, Mayville.
 For Attorney General—James C. Beckett, Hopkinsville.
 For Auditor—Frank P. James, Harrodsburg.
 For State Treasurer—Capt. Ed. Parry, Paducah.
 For Secretary of State—Ben L. Bruner, Manfordsville.
 For Superintendent of Public Instruction—J. C. Crable, Ashland.
 For Clerk of Court of Appeals—Napier Adams, Somerset.

For State Senator

G. T. Jarvis is the Republican candidate for State Senator from the 15th Senatorial District composed of Washington, Marion and Taylor counties.

For Representative

W. B. Barlow is a candidate for Representative in the Lower House of the Kentucky Legislature subject to the action of the Republican party.

Congressman A. O. Stanley

and Morgan China, two of the foremost Democratic spell binders in the present campaign are both trying to make much political capital out of the fact that Hon. A. E. Wilson in the course of his law practice on two occasions represented the American Tobacco Co. They are trying to appeal to the tobacco growers and to take advantage of the prejudice existing against the tobacco trust and in their desperation they grossly misrepresent the facts in the case. In view of the fact that both Mr. China and Mr. Stanley are announced to speak in this county between now and election day the NEWS-LEADER will give to its readers Mr. Wilson's card in explanation of his connection with the case. It is so clearly a piece of Democratic demagoguery that we do not believe the rantings of these campaign quacks will have any serious effect on any fair minded voter. The following is Mr. Wilson's card to the public:

'Mr. China, Clerk of the Court of Appeals, has gone into politics, and with Congressman Stanley, asks the tobacco farmers to vote Beckham, Hager & Company's machine back into power for four years, and yet against me because, in my regular business as a lawyer, I defended one Louisville tax exemption suit for the Continental Tobacco Co., and sued the Pennsylvania Railroad for the American Tobacco Co., on a small claim of a little over \$1,000 for a car of tobacco that was burned.

"There is no claim that there was any wrong in the suits or in my work, but they try to fool the people into voting the ring into power again by making them think that I, or any other business lawyer, might be prejudiced against the people by acting for a company in any business matter. Last anyone, not understanding lawyers' work, might be deceived, I wish to say that I am not and never was the retained attorney of the Tobacco Trust, but that position has been for many years and is now held by Mr. Charles H. Gibson, one of the best lawyers and best men in the State, who would make a good Governor, and without any prejudice by reason of such employment.

"I never had any connection with or any employment by that company in any way except in the two named cases. Mr. Gibson employed and paid me a reasonable charge to help him in the Cincinnati tax case, which case I had won the Mengel Box Company tax case, which had the same question in it.

"Lawyers, like farmers, must be free to do any honest work for anybody, rich or poor, popular or not, who employs them, and the character of the client does not fix the character of the lawyer.

"The tobacco company has no interest in my campaign, but Beckham, Hager & Co., have not yet denied, and I am informed cannot deny, the statement published in the Frankfort Call, a Democratic newspaper, that it was known by an investigation of the Senate that the tobacco trust had contributed \$15,000 to Beckham, Hager & Co.'s 1908 campaign. It would come with better grace to deny that, before trying to fool people into electing the ring by claiming that I would be biased against the people, if they trusted me to be their Governor, by my employment in two perfectly proper lawsuits.

"I have never asked, had, nor wished a dollar of contribution for my campaign from this company, or any company, which could have any favor to ask of the Governor. I have not asked for any favor, contribution, or even railroad pass from any company or person likely to have any official business with the Governor. Will Gov. Beckham, or Auditor Hager, or Treasurer Bosworth, or Congressman Stanley, or Clerk China, or any Democratic State candidate, tell the people that he has not received, or accepted, nor wished any such contribution, or favor, or railroad pass?

"I am sure that they will not and that they have demanded, accepted and used contributions, favors and railroad passes by the score from parties with whom the State officials have important questions of business and other matters to transact, and that the re-election of the ring candidates who are under the greatest obligations to all of these parties, is a danger to the people, while my election will be absolutely free from any particle of danger of this kind.

"AUGUSTUS E. WILSON."

Two hundred men rode into Owensboro on Tuesday and visited various tobacco buyers of that place warning them not to buy any more tobacco in Daviess county. After visiting all of the buyers the men called on the farmers and solicited them to pool their tobacco for sale. The proceedings were conducted in a quite an orderly manner but the action of these men has caused a good deal of excitement in the community.

The Republicans of Washington county should turn out in full force to hear Hon. Augustus E. Wilson speak at Springfield on next Monday, county court day. The popular candidate for Governor is being given enthusiastic receptions everywhere throughout the State and Springfield and Washington county should hold up their end.

Henry K. Jones of Tampa Fla. writes: I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kind of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine." Sold by the Red Cross Drug Store.

Willisburg

The meeting closed at the church here Friday night with 11 additions. We had the best meeting we have had for years. Bro. Gibbs, of Lawrenceburg, was the preacher, he is a good worker in the church.

The ladies organized a Ladies Aid Society to meet at the church Saturday, Oct. 26, 8:30 P. M.

Miss Tava Goodlett and Bessie Drury spent last week with relatives at this place.

Miss Ethel visited Miss Pearl and Madie Cheatham Sunday.

Misses Irene and George Sutton and Ray Wells spent Sunday with Fannie Hughes.

Mr. Tom Wilson and wife, Mrs. Sue Merritt, Mrs. A. B. Wells, Mrs. Will Wells and Rev. Gibbs spent Tuesday with Mr. W. V. Crouch's family.

Mr. Dick Crouch who has been very sick for some time, we are glad to report much better.

Miss Lizzie and Blanche Shirley are spending a few weeks with their brother in Indiana.

Mr. and Mrs. Virginia and Clyde

LENGTH OF THE DAYS

Difference Between the Star Day and the Sun Day.

IT IS GREATEST IN WINTER.

Why the Difference Occurs and How It May Be Observed—Oddly Enough the Shortest Day in the Year is Really the Longest Day in Time.

How long, after all, is a day? The people say that it is the time required for the earth to turn once on its axis, that it measures twenty-four hours by the clock and that a fraction more than 365 of them are to be found in a year.

It is a good plan when one reads anything in a book to test it when he can for himself. We want to see just how long it takes the earth to turn over once. Let us take any one of the fixed stars that chances to be in line with some convenient point, and watch in hand, notice the precise moment at which the star touches, let us say, a particular tree, branch or spire on the horizon line. If on the next evening we stand at precisely the same spot and sight the same star again in line with the same point as before, then we shall know that the earth has turned on its axis just once.

Curiously enough, however, we shall discover, if it is done carefully, that in spite of what the books say, it does not require twenty-four hours for the earth to turn over once. About four minutes before the day is up, by the clock, the star has revolved once and brought the star back to its old position in the sky. Really, then, the earth turns on its axis once in twenty-three hours, fifty-six minutes and four seconds, and as one can easily reckon, makes something more than 366 revolutions in a year.

But human beings are not so much interested in the stars as in the sun. We really don't care much how long it takes the earth to turn over and bring a star back again to the same point in the sky or how many times in a year a star seems to go by. We set our clocks and reckon our year by the turning of the earth under the sun, not by the earth's turn only turn under the sun, but also goes round it, it takes about four minutes longer to bring the sun up to its old place in the sky than to bring back a star. This comes about simply enough. Suppose one is in a room looking out the window at a tree. If he turns round once exactly he will find himself looking straight at the tree again, but if he tried the same thing when he was on a moving train he would find that while he was making the turn the tree had fallen behind. He would then, according to the way he turned, have to turn a little more or a little less to bring the tree straight before him.

Therefore it is not quite true that a day is the time required for the earth to turn once on its axis. It really is this time plus the four minutes or so required for it to turn and look back at the sun. The time required for this extra turn is not the same at all times in the year. One can easily see in the case of the moving train that the faster the cars were moving the longer the track the tree stood the more the latter would seem to shift its position. Since the earth is some 93,000,000 miles nearer the sun in winter than in summer, and since also the nearer the sun is the faster it travels, the difference between star day and sun day is greatest in winter.

Oddly enough, it happens that December 21, when the days are the shortest of the year and is therefore commonly said to be the shortest of

all days, is really the longest, it does, as a matter of fact, run almost half a minute more than twenty-four hours, while the true shortest day, which comes on Sept. 17, falls short by about the same time.

So we really have three different "days." There is the star day, which is the time during which the earth turns over once. This, because the earth spins steadily, is always the same length, twenty-three hours, fifty-six minutes, four and nine-hundredths seconds, and there are 366 of them in a year. Then there is the ordinary day, which is the time required for a paper clock to get round twice. This is just twenty-four hours. Besides these, there is the sun day, which is the time during which the sun goes round with long averages twenty-four hours, but is never found to be exactly the same length for two days in succession.

There is a string of long days in the winter, followed by a series of short ones in the spring. In the summer the sun days get long again, though not quite so long as in the winter. In the long run it takes the earth to turn over once. Let us take any one of the fixed stars that chances to be in line with some convenient point, and watch in hand, notice the precise moment at which the star touches, let us say, a particular tree, branch or spire on the horizon line. If on the next evening we stand at precisely the same spot and sight the same star again in line with the same point as before, then we shall know that the earth has turned on its axis just once.

Curiously enough, however, we shall discover, if it is done carefully, that in spite of what the books say, it does not require twenty-four hours for the earth to turn over once. About four minutes before the day is up, by the clock, the star has revolved once and brought the star back to its old position in the sky. Really, then, the earth turns on its axis once in twenty-three hours, fifty-six minutes and four seconds, and as one can easily reckon, makes something more than 366 revolutions in a year.

But human beings are not so much interested in the stars as in the sun. We really don't care much how long it takes the earth to turn over and bring a star back again to the same point in the sky or how many times in a year a star seems to go by. We set our clocks and reckon our year by the turning of the earth under the sun, not by the earth's turn only turn under the sun, but also goes round it, it takes about four minutes longer to bring the sun up to its old place in the sky than to bring back a star. ANNOUNCEMENT

We are authorized to announce J. Rogers Gore, of Springfield, a candidate for State Senator from the Fifth Senatorial District, composed of Marion, Washington and Taylor counties, subject to the action of the Democratic party.

Goatley, of Maud, come to the Burg to see their best girls last week.

Will Shirley and wife spent Sunday with their father, W. S. Y. Goodlet.

S. R. Pinkston and C. H. Perkins had a sale Friday and will leave Monday for Illinois to make their future home.

You never have any trouble in getting children to take Kennedy's Laxative Cough Syrup. They like it because it tastes nearly like maple sugar.

Kennedy's Laxative Cough Syrup is a safe, sure and prompt remedy for colds and colds and is good for very member of the family. Sold by J. L. Crow Drug Store.

For Sale Privately

I will offer for sale privately the cottage adjoining the property I sold to W. T. Lechman. The house is new and in good repair. For particulars and price call on or address, W. P. Lawrence, Springfield, Ky.

DeWitt's Carbolized With Hazel Salve is good for little barns and big barns, small scratches or bruises and big ones. It is healing and soothing. Good for piles. Sold by the Red Cross Drug Store.

Who Makes XTRAGOOD

WE always like to know all we can about the makers who produce the clothes we offer you; and we'd like you to know about them too.

One of the main reasons we sell XTRAGOOD is the fact that they are made by Ederheimer, Stein & Co., Chicago, in the most modern and remarkable tailor shops ever built; in large, light, airy, clean buildings specially erected and fitted for making clothes better and different than others have done or are doing.

Beside the longer wear your boy will get out of XTRAGOOD, the better appearance and more perfect fit that you'll appreciate, it's an advantage to know they're clean and wholesome, as well as more durable, reliable, honest, economical.

The Best Boy's Outfit is an XTRAGOOD. Ages 7 to 17. Price \$5 to \$12.

Robertson-Claybrooke Co.,

INCORPORATED

Robertson-Claybrooke Co.,

INCORPORATED

To Disinfect a Room.

A simple disinfectant for use in a kitchen or in any room where it is put some ground coffee and a bit of camphor gum in the middle of it. Light the gum, which is nonexplosive and easily ignited, with a match and allow the coffee to burn with the gum. A refreshing and sanitary perfume is the result.

Clothes Drying Rack.

The question of how to dry clothes within the house on rainy days is often a problem to the housewife. How easily it can be accomplished is shown by the use of the clothes drying rack here illustrated. The invention, of an Iowa man. It consists of a standard, which supports sixteen rods, four on each side. Normally these rods revolve in a vertical position, the entire rack occupying but a small space. The rods on each side are rigidly secured to blocks which are hinged to the top of a year.

It is a good plan when one reads anything in a book to test it when he can for himself. We want to see just how long it takes the earth to turn over once. Let us take any one of the fixed stars that chances to be in line with some convenient point, and watch in hand, notice the precise moment at which the star touches, let us say, a particular tree, branch or spire on the horizon line. If on the next evening we stand at precisely the same spot and sight the same star again in line with the same point as before, then we shall know that the earth has turned on its axis just once.

Curiously enough, however, we shall discover, if it is done carefully, that in spite of what the books say, it does not require twenty-four hours for the earth to turn over once. About four minutes before the day is up, by the clock, the star has revolved once and brought the star back to its old position in the sky. Really, then, the earth turns on its axis once in twenty-three hours, fifty-six minutes and four seconds, and as one can easily reckon, makes something more than 366 revolutions in a year.

But human beings are not so much interested in the stars as in the sun. We really don't care much how long it takes the earth to turn over and bring a star back again to the same point in the sky or how many times in a year a star seems to go by. We set our clocks and reckon our year by the turning of the earth under the sun, not by the earth's turn only turn under the sun, but also goes round it, it takes about four minutes longer to bring the sun up to its old place in the sky than to bring back a star. This comes about simply enough. Suppose one is in a room looking out the window at a tree. If he turns round once exactly he will find himself looking straight at the tree again, but if he tried the same thing when he was on a moving train he would find that while he was making the turn the tree had fallen behind. He would then, according to the way he turned, have to turn a little more or a little less to bring the tree straight before him.

Therefore it is not quite true that a day is the time required for the earth to turn once on its axis. It really is this time plus the four minutes or so required for it to turn and look back at the sun. The time required for this extra turn is not the same at all times in the year. last Sunday night a bay wean-
ling mare mule with black
stripe across its shoulder. Any
information will be rewarded by
Mrs. Ella Taylor, r. f. d. No. 1,
Willisburg, Ky.

There is just one treatment
for catarrh that costs nothing
unless it cures—Hymel. The
Red Cross Drug Store sell a com-
plete outfit for \$1.00, and guar-
antee to refund the money if it
fails to cure catarrh. Try it.

The marriage of Mr. Hugh
Hall and Miss Mauser occurred
at the home of the bride near
Penick Station in Marion county
last evening. Mr. Hall is an
enterprising young farmer of
this county. The News-Leader
extends congratulations to the
happy couple.

Mr. Watt O'Bryan the local
live stock dealer bought for
Monte Fox in this county last
week several carloads of cattle
which were shipped Tuesday.
The shipment included 6 head
from St. Rose farm averaging
1290 pounds at \$5.05; a lot from
Polis Edelen weighing 1350
pounds at \$4.75; a lot of Watt
O'Bryan weighing 1980 pounds
at \$5.05; a lot of Manuel Ma-
rja weighing 1350 pounds at 5
cents and 21 head of the Grundy
Orphanage, weight and price
not given.

There is to be elected at the
regular election November 5th
next a new Board of Councilmen
for the town of Springfield and
only one ticket to be known as
the Citizens Ticket has qualified.
The board contains six members
three of which are new and three
are members of the old board.
The following are new members,
Dr. S. J. Snook, O. F. Wharton
and John F. Simms. Those of
the old board who stand for
re-election are W. K. Robertson,
J. C. McElroy and C. F. Logg-
son.

The sale of personal property
belonging to the estate of Thos.
and Lloyd Clarkson was con-
ducted Tuesday at the Clarkson
farm on the Lebanon road. A
good crowd was on hand and
live stock sold well. Brood
mares sold from \$120 to \$185,
mules from \$60 to \$135 each, one
pair of horse mules four and
five years old bringing \$300.
Milk cows sold at from \$35 to
\$50, brood sows at from \$15 to
\$20 a head, fat hogs at about
\$6.25 per hundred pounds and
Jennets at \$25 to \$300 each.
Corn in the field sold at 47 and
48 cents per bushel and hay at
about \$12 per ton.

The Court Day Dinner.

The ladies of the Christian
Church assisted by their friends
of other churches will give a
court day dinner next Monday
at the property on Main street
opposite the opera house. Mr.
Beggeman formerly had a har-
ness shop there. Dinner will
be served for 25 cents from 10 to
5 o'clock. Let every one both
in our town and the hundreds
from the country go there and
get a good dinner and encourage
these hard working women.

House to House Visitation.

One of the most important
events which has occurred in
religious work in Springfield
will take place next Saturday.
Twenty eight of the most prom-
inent young lady workers of the
various churches will make a
complete canvass of Springfield
and the adjacent country to as-
certain the exact number of
people who are attending the

various Sunday Schools of the
town.
The workers will be supplied
with blank books one of which
is to be filled out for each family.
As this is not a denominational
movement, but one which will
be a benefit to the cause of Chris-
tianity in the community, the
ladies will, of course, be accord-
ed a cordial welcome in each
home.
This is part of a great state
campaign undertaken by the
Interdenominational Sunday
School Union, and has for its
object a canvass of the entire
state on that day.

Evangelistic Services.
Rev. C. W. Dick is engaged in
quite an interesting and success-
ful meeting at the Christian
church. Sunday night their
beautiful auditorium was crowd-
ed to the doors. The services
will continue this week until
next Sunday, preaching every
day at 2:30 and 7:30 P. M. All
are most cordially invited.

Cook Book.

"What to cook, and how to
cook it" is the title of the text
book that the author, Mrs. W.
A. Johnson, who is giving cook-
ing lessons here, uses exclusively
in her demonstration course for
her class. It is now in its ninth
edition and has been on the
market only eight years, a fact
that speaks volumes for its
popularity. Mrs. Johnson offers
her book for sale to the
public at \$1.50 a copy. The re-
cipes are so plain and practical
that every woman who prides
herself on her good cooking and
housekeeping should avail her-
self of the opportunity to get a
first class cook book.

McCabe—Marks.

The marriage of Miss Mary J.
McCabe to Mr. Gwin Marks
was solemnized Tuesday even-
ing at 7:30 o'clock at the home
of the bride's parents on Main
Street, the Rev. Father Hen-
nessey performing the ceremony.
Miss Edith Shaver and Mr.
George Robertson acted as at-
tendants and Miss Josie Shaver
played the wedding march. Only
the immediate families of the
bride and groom witnessed
the wedding.

The bride is the oldest daugh-
ter of Mr. J. J. McCabe and is a
very attractive young lady. The
groom is the oldest son of Mr.
and Mrs. W. K. Marks and is an
industrious and enterprising
member of the firm of Marks &
Gheen. After a week's visit with
relatives at Winchester, Mr. and
Mrs. Marks will be "at home"
at Mrs. M. L. Seary's.

County Sunday School Con- vention.

The annual convention of the
Washington County Sunday
School Association will be held
at East Texas, Thursday, Nov. 7.
A strong program is being pre-
pared and many efforts will be
made to make this their best
convention ever held in our
county. Prof. E. A. Fox, our
State Secretary, will represent
the State work. He is thorough-
ly conversant with every detail
of Sunday School work, and his
talk will be practical and helpful.
Some of our best local speakers
will also be on the program.

Please let every Sunday
School Superintendent in the
county send reports to Miss
Elia D. Shanahan, our county
Secretary, so she can make her
report in full. Don't wait for
us to write for it. Let each
school in the county appoint one
or two delegates to represent
the school officially. In addition
let every one possible attend and
bring a basket of something for
the table. Come and enjoy a
good day. A feast for the mind
and heart and a table such as
Washington county ladies spread.
For further information ad-
dress the county president,
R. E. C. Lawson,
Springfield, Ky.

Cooking School.

Next Saturday Mrs. Johnson
will demonstrate the making of
salads before her class. All
ladies who are interested in new
methods of salad making will
find this one of the most in-
structive lessons given.

Monday and Tuesday are to
be cake and ice days. Every
lady wants to know something
new about cake and ice and
this is an opportunity not to be
missed.

Single lessons 50c.

FOLEY'S HONEY TOOT

Best of all Prevents Toothache

PERSONAL

Dr. L. H. Bellbaum was called
to Louisville the first of the
week by the illness of his sister,
Miss Agnes Bellbaum who is
quite sick with typhoid fever.

Dr. W. F. Trusty and family
have returned from a visit to
relatives in the western part
of the State.

nolds, Nebraska, has returned
home after a visit to her father
Mr. T. A. Tatum.

James Moran, Jr., who has
been railroad agent at Valley
Hill, has gone to Reynolds,
Neb., where he has received a
good position with a railroad.

Mrs. S. J. Sutton has returned
to her home in Indianapolis,
Ind., after spending three weeks
with her daughter, Mrs. E. L.
Davison.

Mrs. G. B. Hawkins, after a
pleasant visit with her parents
here, has returned to her home
at Lawrenceburg.

Miss Susie Penn has returned
home after five weeks visit with
her father at Nashville.

Mr. H. M. Moss is at home
after a visit with friends and
relatives in Lexington.

Mrs. W. H. Leachman, is at
home after spending a week
with her sister, Mrs. G. G. Gil-
bert at Shelbyville.

Mr. Will Selemann is at home
from Louisville.

Miss Alice Haydon is out
again after a long illness of ty-
phoid fever.

Mr. Will Wharton spent Mon-
day in Louisville.

Mr. Theo Campbell is confined
to his home by illness.

home from Central University
where he had matriculated for
the present term on account of
serious lung trouble.

Mr. Alex Barber will leave
Friday for Oklahoma City, to
cash his lot in the new country.

Mrs. Thomas H. Logsdon, of
St. Marys, arrived Monday eve-
ning to visit her sister, Mrs. R.
W. Wathen.

Miss Alice Sansbury is visit-
ing Miss Julia Bickett at Leba-
non this week.

ANDREW SCHENCK.
President of the German Fire In-
surance Co. Recommends Cham-
berlain's Cough Remedy.

I have used Chamberlain's Cough
Remedy in my family for over a year
and can say that it has never failed to
cure the most stubborn cough or cold.
I can recommend it to any family as
a sure and safe children's cough reme-
dy.—ANDREW SCHENCK, AYTON, Ont.
This remedy is for sale by Haydon &
Robertson.

Notice.
If the person who borrowed
my cutting box from my barn
some time ago will kindly re-
turn same I will be much obliged.
CONRAD HERTLEIN.

In most cases consumption results
from a neglected or improperly
treated cold. Foley's Honey and
Tar cures the most obstinate coughs
and prevents serious results. It costs
you no more than the unknown pre-
parations and you should insist upon
having the genuine in the yellow
package. Sold by the Red Cross
Drug Store.

A New Case.
A Chicago physician was one day
called to attend a sick child in a
shabby "tenement" quarter of the Windy
City.

"Madam," said the doctor to the
mother, "you should send this child
into the country for several weeks
each summer."

"I am sorry to say, doctor," respond-
ed the woman, "that we are not rich
enough to do that."

"Then," suggested the physician,
"have her sent by the fresh air train."

"Oh, doctor," exclaimed the woman,
"we are not poor enough"—Harper's
Weekly.

To Selfish.
Citizen—What's the matter with all
you selfish fellows? You don't seem
to like my friend Backley. Sub-
scribe—No! he's selfish. Citizen—Oh,
come now! Backley—That's what he
is. A larrikin snip could fire the
other night and he put it out without
waiting for the rest of us members
of the Scrubshooter Hose to reach the
scene.—Philadelphia Public Ledger.

The Comfortable Fortune.
"What is your idea of a comfortable
fortune?" asked the ambitious youth.
"One," answered the man of experi-
ence, "that is big enough to buy just
everything you want and not big
enough to attract the attention of the
tax-payers."—Washington Star.

Feminine Bravery.
Tom—Do you think women are
braver than men? Dick—Yes, I do.
I never saw one yet that wouldn't take
a chance at marriage.—Detroit Free
Press.

Call For Election.

STATE OF KENTUCKY.

County of Washington,

August term of the Washington

County Court, August 26, 1907.

This day came G. W. Grigsby and

filed a petition signed by twenty legal

voters of Mooreville voting precinct

No. 2 of Washington county, Ken-
tucky, and moved the court to hold
